

# DA FAMILY LAWYERS CASE STUDY

Deborah Awyzio

## Challenges

- Lengthy initial consultations
- Administrative burden
- Reduced efficiency

## The Settify Solution

### Time Savings and Efficiency

Clients receive a Settify link to provide information relevant to their matter securely. Lawyers use this data to prepare tailored advice before the initial consult, saving time and money. The streamlined process allows our legal team to focus on other important tasks, increasing productivity overall.

### Enhanced Solicitor-Client Matching

DA Family Lawyers use the information obtained via Settify to evaluate each client's specific circumstances. The firm gains valuable insights into each client's unique circumstances, allowing them to determine the most suitable solicitor to handle the case. This results in higher satisfaction rates and a greater chance of successful outcomes.

DA Family Lawyers is a Brisbane-based firm renowned for expert representation and advice. The firm is led by Deborah Awyzio and Lisa Foley, distinguished family law specialists known for their respectful, efficient approach to navigating clients through complex family issues.

“Settify's integration revolutionised our firm's operations, streamlining consultations, improving efficiency, and strengthening client relationships. With its intuitive platform, clients enjoy a convenient and organized experience while we deliver tailored legal solutions.”

### Positive Client Feedback

Clients who have come through the Settify platform appreciate how it helped them to manage and organise information, reduce stress, and create a sense of reassurance.

### Rapid Rapport Building

Settify has helped lawyers to connect quickly with clients by allowing them to review client-provided data before the consultation. Even before the first meeting, lawyers appreciate the client's objectives and concerns, making the process run more smoothly..
